NEW WESTMINSTER, SATURDAY, DEC. 2, 1865.

THE ABORIGINES AND THE SOIL.

Although holding firmly to the belief that the aborigines, the "ancient lords of the soil," have claim upon our consideration which we ignore at our peril, yet we cannot go the length of the "Aborigines Protection Society," in an address recently promulgated among the Maories of New Zealand, and in which the position is taken that the whole of the land belongs unalienably to the natives, and admonishes them to maintain their title to it against all comers; not to dispose of it on any terms, or concede any single step, because the aggressive Colonist. However philanthropic may have been the motives, which dictated that address there is no denying that much of it is palpably nonsensical, and ludicrously behind the enlightenment of the present age. Colonization necessarily involves the contact, and practically the collision, of two races of men—one superior, and one inferior, the latter being in possession of the soil, the former gradually supplanting it. The history of every civilized country illustrates the truth of this proposition. Everywhere, in obedience to what appears to be a natural law, the uncivilized native has receded before the civilizer. Pre-eminently has this been the case with respect to our own continent. This great country has been formed step by step, in this very fashion. The "red man," perhaps not himself the first human occupant of the continent, has been driven westward year by year, till he who was once the lord of the soil—monarch of all he surveyed, is to be found retreating far back into the jungle, as though seeking to conceal himself from the brighter rays of civilization. There is no denying that the Indians have disappeared, and are disappearing, and will continue to disappear, until finally the race will become utterly extinct; and if the philanthropist and the Christian—and who amongst us does not lay claim to be such?—would set themselves intelligently to work to mitigate the inevitable lot of the aborigines, instead of making futile efforts to avert it, we should, perhaps, see better results, and hear less nonsense. We have been led into these reflections in view of the attitude the relations between the natives and the settlers have, recently assumed on the Lower Fraser. One of the very last official acts of our late Governor was to send a couple of surveyors, up to the Masque and Chilwhack prairies, probably the most extensive and really valuable open lands in the Colony, with instructions to survey off as Indian reserves whatever lands the Indians themselves might point out. It will not be difficult for the reader to imagine the result of this palpably ill-judged step. Several millions of acres of the choicest prairie lands, in all conceivable forms and position, were laid off as the greed or caprice of the wondering Indian suggested; and the result is that it would be difficult, in all that extensive range of prairie, for a settler to find room for a farm of the most modest dimensions, without coming in collision with a so-called Indian reserve; and so extravagant were the Indians in their notions that in some instances, we are assured, the reserve amounts to about a thousand acres to each man! But, not only has this survey practically locked up the section of country alluded to against the ingress of settlers, but it has, in some instances, made sad havoc of property, here-empted, occupied and improved by white men, anterior to such survey. The result of all this is just what might have been expected. But, although what we said years ago of the ill consequences of our want of system in dealing with the natives has thus received a thoroughly practical illustration, we do not handle the subject to prove our prophetic sagacity, but to convince the seemingly purblind authorities that it is no longer prudent to ignore this important question of an "Indian policy." The rights of the Indians we have always defended, and we always will defend them. But these rights we do not conceive to be to hold large tracts of valuable agricultural and pastoral land which they do not use, and cannot use. Proper Indian reserves ought to have been laid off long ago, in respect of those districts where they have to any extent come in contact with the settler. What has been left, almost criminally, undone so long, should be done now, and should be done in some sort of intelligent, systematic way. To attempt to sketch out a system, or indicate the proportion of land which ought to be allotted to each family, is rather more than we could do in the scope of one short article; but we would earnestly urge upon the Government the necessity that exists for grappling with this question at once.

THE GRAND PROMOTERS OF HEALTH.

HOLLOWAY'S PILLS.

The grand secret of attaining happiness is to secure good health, without which life is stripped of all its pleasures. The first irregularity of any function should be checked and set right by appropriate doses of these fine purifying Pills, which strengthen the system by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disturbance, and restore its normal and natural power to every organ, without inconvenience, pain, or any other drawback.

Derangement of the Bowels, Liver and Stomach Complaints.

This medicine is so well known in every part of the world, and the cures effected by its use are so wonderful, as to astonish everyone. Its pre-eminence as a remedy for various and their complaints, and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the beneficial effects of Holloway's Pills are so permanent, and extensive that the whole system is renovated, the organs of digestion strengthened, and full and easy assimilation promoted, so that both physical and moral energy are increased.

Determination of Blood to the Head.

This is generally occasioned by some irregularity of the stomach and bowels, which, if not quickly attended to, frequently terminates fatally. A few doses of these famous Pills never fail to give tone to the stomach, regularity to the secretions, and purity to the fluids. Vertigo, dimness of sight, and other indications of approaching apoplexy, are entirely dissipated by a course of this admirable medicine.

The Female's Best Friend.

For all debilitating disorders peculiar to the sex and in every contingency perilous to the life of women, youthful or aged, married or single, this mild but speedy remedy is recommended with friendly earnestness. It will correct all functional derangements, to which they are subject.

Scurfula and all Skin Diseases.

For all skin diseases, however inveterate, these medicines are a sovereign remedy. While the Pills act upon the blood, which they purify, the Ointment passes through the pores of the skin, and cleanses every structure, as water saturates the soil or salt penetrates meat. The whole physical machinery is thus renovated, healthy, regular and vigorous.

Coughs, Colds and Asthmata.

No medicine will cure colds of long duration or such as are settled upon the chest so quickly as these famous Pills. In cases where the first stage of asthma has appeared, these Pills may be relied on as a certain and everlasting remedy, particularly if the Ointment be simultaneously well rubbed into the chest and throat at night and morning.

Indigestion—Bilious Headache.

These complaints may sometimes be considered trifling, but it should be borne in mind that, by inattention and neglect, they often end most seriously. Give early thought to a deranged stomach, take Holloway's Pills, rub his celebrated Ointment over the pit of the stomach, and you will shortly perceive a change for the better in your digestion, spirits, appetite, strength and energy. The improvement, though it may be gradual, will be thorough and lasting.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague	Female Irregularities	Retention of Urine
Asthma	Gravel	Scurfula, or King's Evil
Bilious Complaints	Fetors of all kinds	Sore Throats
Blotches on the skin	Fits	Stone and Gravel
Bowel Complaints	Gout	Secondary Symp-toms
Cold	Head-ache	Tic Douloureux
Constipation of the bowels	Indigestion	Tumours
Croup	Inflammation	Veneral Affections
Consumption	Jaundice	Worms of all kinds
Debility	Liver Complaints	Weakness, from whatever cause
Dropsy	Lumbago	&c. &c.
Dysentery	Piles	
Erysipelas	Rheumatism	

Sold at the establishment of Professor Holloway, 244, Strand, (near Temple Bar) London: also by all respectable Druggists and Dealers in medicines throughout the civilized world, at the following prices:—12s. 12d., 2s. 6d., 4s. 6d., 11s., 22s., and 33s. each Box. There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box.

JOHN DELANEY, New Westminster, 28th Sept. 1865.

TENDERS WANTED!

THE UNDERSIGNED, being always willing to act with the times, is delighted to inform the inhabitants of New Westminster that he can supply its residents during the Winter with

PROSPECTUS OF THE BRITISH COLUMBIA

COAL MINING COMPANY!

[LIMITED].

Incorporated under the Joint Stock Com-panies' Act, 1856, which limits the li-ability of each Shareholder to the amount of his Shares.

CAPITAL - - - - - \$100,000,

IN 2000 SHARES OF \$50 EACH, WITH POWER TO INCREASE.

100 A. SHARES have been issued as paid up shares to the promoters of the company, as the consideration paid them for their rights to 600 acres of land, &c. The remaining 800 A. shares are reserved for the general benefit of the company. 700 B. shares to be issued to subscribers, subject to payment of \$2 per share at the time of subscription, and of calls of \$1 per share, per month, until \$15 in all shall have been paid, when the subscribers shall be entitled to certificates of fully paid up stock. The remaining 1000 C. shares are reserved for issue at par when the Coal Mine is sufficiently explored and proved.

DIRECTORS:

CAPTAIN JAMES COOPER, Chairman;

Hon. J. A. R. HOMER, M.L.C., W. CLARSON, Esq.,

JOHN ROBINSON, Esq., GEORGE DIERZ, Esq.,

SEWELL P. MOODY, Esq., JAMES VAN BRAMER, Esq.,

JOSIAS C. HUGHES, Esq., W. J. ARMSTRONG, Esq.,

JOHN PICKARTY, Esq.,

AUDITOR:

THOMAS MCKINCKY, Esq.

BANKERS:

THE BANK OF BRITISH COLUMBIA.

SECRETARY:

WILLIAM CLARSON, Esq.

This company is organized for the purpose of explor-ing and mining for Coal, and boring for Coal Oil. The character of the sandstone at Burrard Inlet, its identity with the coal-bearing sandstone of Bellingham Bay and Nanaimo, and the numerous indications of Coal to be found at different places on the Inlet and on English Bay, make it nearly certain that Coal measures similar to those of Bellingham Bay and Nanaimo will be found at a reasonable depth.

The company have secured a reserve of 600 acres on Coal Harbor, Burrard Inlet; also a right to mine on 800 acres on English Bay, giving to the company a coal field of 1200 acres in extent, and the British Columbia Gov-ernment has pledged its support in every reasonable way.

It is the intention of the company to immediately put down a bore for Coal—the ground probability being that in less than 90 days the strong will have been prospected and the company ready to sink a shaft and open a mine.

If the Coal croppings at English Bay or Burrard Inlet should be succeeded, as is usually the case, by thicker seams below, it must become an invaluable property. The position of English Bay and Burrard Inlet renders the harbors easy of access in all winds and seasons. The shore is bold, so that no long wharves or tramways would be needed, while the prices of Coal on the Pacific—aver-aging from two to three times the prices on the Atlantic—render the prosecution of Coal mining one of the most promising enterprises of the day.

The whole of the B. shares are now offered for subscription. The monthly calls on these will be ade-quate to meet the current expenses of prospecting; the subscribers to these shares incur a small risk, but they get a compensation—a \$50 share for the small sum of fifteen dollars.

Parties desirous of obtaining shares may be furnished with every information by applying to the Secretary, at the company's office, in New Westminster.

The company have engaged Mr. John Dick, a practi-cal coal miner of many years' experience both in Scot-land and Vancouver Island, to prospect and examine the "field" of English Bay and Burrard Inlet. The annexed is his report:—

"To the Board of Directors of the British Columbia Coal Mining Company, Limited.

GENTLEMEN.—After a careful examination of several square miles of the country lying to the southward of Burrard Inlet, I take pleasure in being able to state that, although owing to the general regularity and unbroken nature of the beds of strata there visible I have not been able to discover the outcroppings of any coal seam worthy of note, still there is every indication of the existence of such a seam at no great depth—say from 40 to 60 fathoms. Should my surmise prove correct there is no doubt (judging from the very trifling angle of dip and its freedom from faults and other dislocations of strata) that the field will be quite equal in extent to any yet discovered on Vancouver Island.

For the purpose of further proving the quality of the Coal and its depth from the surface, I would recommend that a series of borings be commenced at such places as, after further deliberation, I shall be prepared to point out. I am, Gentlemen, Your obedient servant,

JOHN DICK."

MORROW'S ALE.

The undersigned is manu-facturing a superior quality of

ALE,

which will be sold in quan-tities to suit.

WILLIAM H. WOODCOCK.

Auction Sale of Real Estate—H. V. Edmonds.
Notice—David Douglas.

The British Columbian.

NEW WESTMINSTER, SATURDAY, DEC. 2, 1865.

THE "SOUTH SAND HEAD."

Such is the name which the Light-Ship bears, in large white letters upon red ground. The vessel moved up to the "Pioneer Wharf" on Thursday afternoon, to take on board the mooring cables and anchors. The lantern of the Light-Ship is, of course, the principal feature. It is intended to burn eight Argand lamps, which will show a light in smooth weather across the Gulf. The vessel is staunchly built and apparently well found. The anchors and cables, which have been lying for some time upon the wharf, are intended to be laid upon the ground, the cables uniting in the centre, from which will be attached 15 fathoms of chain, and connected to this will be the riding chains, so that which ever way she swings she will ride with 60 fathoms of cable. Her crew consists of Mr. Jolly, who is captain, and four men, viz:—R. Hard, John Tomlinson, John Flett, Michael Herton. The Light-Ship has been built according to drawings, &c., by our worthy Harbor Master, Capt. Cooper, who has also personally superintended the work throughout, the contractor being Mr. Bolton, of Nanaimo, and we do not overstate the case when we say that she is a credit to both. Indeed we will say more. Both the Government and the people are laid under obligations to Capt. Cooper for his indefatigable zeal, and unquestionable skill in turning out so staunch and complete a vessel, and we should be glad to see these obligations marked in some more practical and substantial form. In looking back over a period of five years, during which we have continued to importune the Government upon the necessity for the Light-Ship, we may be pardoned in indulging a peculiar pride in seeing the ship brought so near completion; and we cannot help expressing surprise that so important an epoch in the history of New Westminster, as a maritime town, should evoke so little enthusiasm, now that she is about ready to be placed at her moorings. We are not unaware that there are to be found those who, now that this great and long asked-for boon has been granted, are disposed to turn round and question the policy of placing a Light-ship at the Mouth of the Fraser. And what do you think is their ground of objection? Why, that it will light commerce to Nanaimo, as well as to New Westminster and our outer harbor of Burrard Inlet! Would it be possible to conceive of a position more thoroughly and essentially like that occupied by the dog who took possession of the manger, and because he could not eat the provender himself, would not let the honest ox partake of it? Imagine a man travelling a rough and dangerous road, of a dark night, with his unit lamp by his side, unit for fear that some fellow wayfarer might, peradventure, share the benefit. No less short-sighted and hog-like is the policy which would withhold a Light-ship from the Sand Heads because it would light commerce other than which is immediately our own. We frankly admit the benefit which the shipping of the neighboring Colony must derive from the Light-ship; and inasmuch as we defray a moiety of the expense of the Race Rocks and Fisguard Lights, so we, in turn, may reasonably expect that a fair proportion of the expense of the Light-ship at the Mouth of the Fraser, shall be borne by the neighboring Colony. But, altogether apart from our own shipping, it would become the duty of a liberal and enlightened Government to put a light upon the Sand Heads to light the mariner on his way wheresoever bound. But, for our own commerce, the Light-ship is a necessity. We fancy we hear some croaking fellow ask with a sneer, Where is our commerce? Our shipping; where is it? We would answer this question as "Pat" is said to do, by asking another: Where was the shipping of Liverpool two hundred years ago? "Rome wasn't built in a day," neither will the commerce of this Colony be established all at once, nor will it ever be if it is strangled in its infancy by a short-sighted, penny wise and pound foolish policy. But, we have shipping, and it is rapidly increasing, and will increase. Even now we average from eight to ten vessels a month, and we see an avenue opening by which it will in all probability be doubled next year. Look at Burrard Inlet with its sawmills and its coal mine. Capt. Stamp's mills will employ on an average six ships of

large tonnage a month. Moody & Co.'s mills will probably employ half as many, while it is not unreasonable to assume that the coal mine, if successful, will employ twice as many as both. Thus we may reasonably expect that the shipping of our outer harbor will average from fifteen to eighteen sail per month. And, remember, it is not only the shipping that is involved in this consideration but the large amount of labor which must be employed in developing those resources which will attract that shipping. Nor is it likely that the matter will end with two mills. It is far more than probable that in less than five years we shall have as many mills in operation upon that magnificent Inlet. For this harbor, what we may say will necessarily partake somewhat more of prediction. It is true, we average only about six vessels a month now, exclusive of steamers. But even if the increase in the future is no more rapid than it has been this year, we shall have twelve vessels a month next year. But, with direct trade, which is certain to come, under the new tariff and enlightend legislation, with the rapidly expanding commerce of the country, consequent upon the expansion of its gold-fields and the development of other resources, there is nothing Utopian in the idea that our maritime trade will be more than quadrupled in less than two years from the present writing. Are such interests as these not worthy of consideration? Or would the Government be justified, in view of our present and prospective maritime trade, in withholding so essential an element of success as the Light-ship, either on the ground of expense, or because it will give light to our neighbors? Shame upon the parblind noodle that would harbor such an idea. But it is a gratifying reflection that we have now a Government of sufficiently enlightened and liberal conceptions to utterly repudiate all such miserable, pigmyish, anti-progressive notions. And the best proof that we have such a Government is the Light-ship now lying in our harbor.

NOTICE.

THE Public are cautioned against negotiating two notes of Five Hundred Dollars each, drawn by Walter Burgess and James Holliday, of Pemberton Meadows, dated January 4th, 1865, payable respectively at six and ten months to David Douglas, of Lillooet, or his order.

Public Notice.

Public Notice.

THE OFFICER administering the Government being
desirous of encouraging the construction of a
Steamboat to ply between the western extremity of
Kamloops Lake and the upper or eastern end of Shus-
wap Lake, in connection with the Waggon Road pro-
posed to be made from Ashcroft, or thereabouts, to
Savanna's Ferry on Kamloops Lake, persons wishing to
undertake this enterprise are invited to send in to the
Colonial Secretary's Office, by or before noon of Wed-
nesday, December 1st, written proposals for the above
service, in sealed envelopes addressed "Tenders for
Steamboat on Kamloops and Shuswap Lakes."

The Government contemplate granting, as an inducement
in aid of this undertaking, an exclusive privilege,
for a definite period of conveying freight and passen-
gers, between the above named points, at fixed rates,
the proposals hereby invited should therefore state
what schedule of fares and freights are proposed to be
charged, and for what length of time; and should fur-
ther specify the dimensions and accommodation of the
boat to be built, and her estimated steam power and
average rate of speed; as well as the number of trips to
be made by her per week, and during how many weeks
in the year; also the date at which the Steamer will be
completed and ready to make her first trip.

The Government do not bind themselves to accept
the lowest or any of the proposals that may be made in
answer to this advertisement.

By Command,

HENRY M. BALL.

Colonial Secretary's Office, Nov. 24, 1865. no8 to

Public Notice.

SEALED TENDERS will be received at the Lands
and Works Office, New Westminster, up to noon,
of Wednesday, the 20th of December, for the construc-
tion of a Waggon Road from a point at or near Ashcroft,
on the Yale-Clinton Road, to Savanna's Ferry, at the
western extremity of Kamloops Lake.

With each tender must be enclosed a Bond of the
person tendering, and of two responsible sureties with
him, for the payment to the Government of £500 con-
ditional on the non-fulfilment by him of the terms of
his Tender, if accepted.

The lowest or any tender not necessarily accepted.
The specifications and forms of bonds may be seen,
and further information obtained at this office after the
1st December, before which date the exact terms and
line of the proposed route will have been determined
and staked out.

Tenders to be addressed to the Chief Commissioner
of Lands and Works, and superscribed "Tenders for
Waggon Road to Kamloops Lake."

By Command,

JOSEPH W. TRUTCH.

Chancery Notice.

In Chancery,
In Chambers,
The Chancellor

Between
DUNCAN McPHEIL, Plaintiff,
and
DUGALD McLEAN, the younger, Defendant.

Upon the application of the Plaintiff, and it appearing by affidavits that after due diligence the said Defendant, Dugald McLean, the younger, cannot be found to be served with an office copy of the bill in this cause, it is ordered that the said Defendant, Dugald McLean, the younger, do on or before the thirtieth day of December next, answer or demur to the said bill; and it is ordered that a copy of this order, together with the notice required by the General Orders of this Court, be published in the COLUMBIAN NEWSPAPER, published in New Westminster, British Columbia, not less than six weeks before the thirtieth day of December next, and to be continued once in each week until the said day. And it is further ordered that a copy of this order and a copy of the bill of complaint herein be served upon Dugald McLean, the elder, of the Township of Alderborough, in the County of Elgin, the father of the said Defendant, within one calendar month from this date.

(Signed.) A. GRANT, Registrar.

To the above named Dugald McLean, the younger:
Take notice that if you do not answer or demur to the bill pursuant to the above order, the plaintiff may obtain an order to take the bill as confessed against you and the Court may grant the plaintiff such relief as he may be entitled to on his own showing, and you will not receive any further notice of the future proceedings in the cause.
